

Assessment Report

Hikma Charity Association Projects 2022–2026

Page 1 – Executive Summary

From 2022 to 2026, Hikma Charity Association implemented major humanitarian projects in Somalia, focusing on **healthcare, water access, nutrition, disability support, and community resilience**. These interventions directly improved the lives of over 200,000 beneficiaries.

Page 2 – Background & Context

- Somalia's humanitarian crisis: drought, conflict, displacement.
- Hikma Charity's mission: sustainable relief and empowerment.
- Target groups: orphans, displaced families, women, disabled persons.

Page 3 – Cataract Surgery Program

- Over 2,500 **cataract surgeries** performed.
- Mobile clinics reached rural areas.
- Outcomes: restored sight, independence, reduced poverty.

Page 4 – Boreholes & Water Access

- 10 **boreholes** drilled in drought-affected regions.
- Clean water access for 125,000+ people.
- Reduced waterborne diseases, improved hygiene.

Page 5 – Infant Formula Distribution

- 12,000 infants supported with formula in IDP camps.
- Reduced malnutrition and infant mortality.
- Linked with maternal health education.

Page 6 – Wheelchair Provision

- 500 **wheelchairs** distributed.
- Improved mobility, dignity, and inclusion.
- Beneficiaries connected to vocational training.

Page 7 – Community Resilience Projects

- Training in drought-resistant farming.
- Small business grants for women.
- Village savings groups established.

Page 8 – Education & Orphan Care

- 2,500 orphans Were Supported
- School supplies and housing support.
- Long-term impact: literacy and empowerment.

Page 9 – Healthcare Expansion

- Maternal and child health centers in Garowe.
- 6,000 women received antenatal care.
- Reduced maternal and infant mortality.

Page 10 – Food Security Programs

- Ramadan and Qurban food distributions reached 50,000 families.
- Seasonal hunger alleviated.
- Strengthened community solidarity.

Page 11 – Livelihood Support

- Fishing boats distributed to coastal communities.
- Vocational training for youth.
- Increased household income.

Page 12 – WASH Programs

- Boreholes complemented by hygiene campaigns.
- Reduced cholera outbreaks.

- Improved sanitation in IDP camps.

Page 13 – Achievements

- Direct impact on over 200,000 beneficiaries.
- Improved health, nutrition, livelihoods, and resilience.
- Transparent donor reporting strengthened trust.

Page 14 – Challenges

- **Funding sustainability:** reliance on external donors.
- **Climate change:** droughts and floods disrupted progress.

Page 15 – Recommendations & Conclusion

1. **Expand Resilience Projects.**
2. **Scale borehole projects** with solar pumping systems.
3. **Increase infant nutrition programs** with fortified foods.
4. **Strengthen disability support** with vocational training.
5. **Enhance resilience** through climate-smart agriculture.
6. **Diversify funding** via local partnerships.

Conclusion: Hikma Charity's 2022–2026 projects delivered tangible humanitarian impact, restoring sight, providing clean water, nourishing infants, empowering disabled persons, and building resilience. Sustained donor support and strategic expansion will ensure continued progress into 2027 and beyond.
